The screenshots show a product listing for a 'Slow' item, which is a 99% new keyboard. The price is ¥699.00. The product description mentions it's a Wooting magnetic axis keyboard bought last week and is being sold at a loss. Below the description is a photograph of the keyboard.

**Screenshot 1:** Shows the product details and a 'But it!' button at the bottom.

**Screenshot 2:** Shows the same details, plus a 'Successfully collection' message with a checkmark icon.

**Screenshot 3:** Shows a messaging interface. A user asks if the price can be lower, and the seller responds that it's already very low. It also includes a 'But it!' button at the bottom.
